| **Target version:** | Toolkit 0.1 | **Spent time:** | 0.00 hour |

**Description**

the buildgenerator created shellcode does not install the hlc_client java code?!

fix:

```
cp
```

### History

**#1 - 2014-11-25 11:42 - Norman Köster**

Shouldn't this be done by the maven appassembler plugin? To my mind copying the jar like this is not a solution - it should rather be integrated in the maven build steps and not in the shellcode...
