Image Component Library - Bug #92

Fix V4L2Grabber that crashes when Webcam uses MJPG format

2012-08-24 10:49 - Christof Elbrechter

Status:	Closed	**Start date:**	2012-08-24
Priority:	Low	**Due date:**	
Assignee:		**% Done:**	0%
Category:		**Estimated time:**	0.00 hour
Target version:	icl-8.1		

Description

- unfortunately this configuration crashes every program BEFORE you can change the format
- The bug can be fixed by using console based input to set the camera format to something that is not MJPG encoded

e.g.:
icl-camviewer -input v4l2 0@info
icl-camviewer -input v4l2 0@format=COPY_PASTE_VALID_FORMAT_HERE

History

#1 - 2012-08-24 12:16 - Christof Elbrechter

- Subject changed from Fix V4L2Grabber that does crashes when Webcam uses MJPG format to Fix V4L2Grabber that crashes when Webcam uses MJPG format
