Description

I would like to suggest a "documentation code sprint" for all tools relevant for the CITk.
This could take place during the open-lab on Mondays, but I would like to have
this done ASAP because more and more people are asking.

Maybe this is also needed for the SIMPAR

The target audience (advanced) users *not* for developers.

Topics (non-complete):

Concept (Florian, Sebastian)
Catalogue (Florian)
Catalogue Content Generation (Florian)
Recipes (Jan, Arne, Johannes)
Build Generator (Jan)
(Testing) (Florian)
TBC

What do you think?
