

## Cognitive Interaction Toolkit - Bug #563

### citkat: search based on specific field values should not do substring matching

2018-04-24 14:06 - Jan Moringen

<b>Status:</b>	Closed	<b>Start date:</b>	2018-04-24

<b>Target version:</b>		<b>Spent time:</b>	0.00 hour
<b>Description</b>			
For example, <a href="https://citkat-test.techfak.uni-bielefeld.de/search/lang/C">https://citkat-test.techfak.uni-bielefeld.de/search/lang/C</a> results in entities whose programming language field <i>contains</i> C. This is the case for C++ and Common Lisp in addition to C.
